### SAFETY DATA SHEET

### AMSOIL Propylene Glycol Antifreeze & Coolant

| Section 1. Identification Date : 11<br>Version : 6         |  |           | : 11/01/2016<br>: 6 |
|--|--|-----------|---------------------|
| GHS product identifier                                     | : AMSOIL Propylene Glycol Antifreeze & Coolant   |           |                     |
| Code   | : ANT  |           |                     |
| Product type   | : Liquid.  |           |                     |
| Identified uses  | : Antifreeze.  |           |                     |
| Manufacturer   | : AMSOIL INC.<br>One AMSOIL Center<br>Superior, WI 54880<br>Tel: +1 715-392-7101   |           |                     |
| Initial Supplier<br>(Canada)                               | : AMSOIL INC.<br>Bordner, Ladner, Gervais<br>Scotia Plaza, 40 King St W<br>Toronto, ON, Canada M5H 3Y4<br>Tel: +1 416-367-6547 |           |                     |
| Emergency telephone<br>number (with hours of<br>operation) | : CHEMTREC: Within USA and Canada: 1-800-424-9300;<br>Outside USA and Canada: +1 703-741-5970 (collect calls<br>(24/7)         | accepted) |                     |

# Section 2. Hazards identification

| OSHA/HCS status   | <ul> <li>This material is considered hazardous by the OSHA Hazard Communication Standard<br/>(29 CFR 1910.1200).</li> </ul>   |  |
|---|---|--|
| Classification of the substance or mixture              | : EYE IRRITATION - Category 2B  |  |
| GHS label elements                                      |   |  |
| Signal word   | : Warning   |  |
| Hazard statements                                       | : Causes eye irritation.  |  |
| Precautionary statements                                |   |  |
| Prevention  | : Wash hands thoroughly after handling.   |  |
| Response  | : IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical attention. |  |
| Storage   | : Not applicable.   |  |
| Disposal  | : Not applicable.   |  |
| Hazards not otherwise classified (HNOC)                 |   |  |
| Physical hazards not<br>otherwise classified<br>(PHNOC) | : None known.   |  |

Date of issue : 11/01/2016

```
Health hazards not
otherwise classified
(HHNOC)
```

: None known.

# Section 3. Composition/information on ingredients

| Substance/mixture | : Mixture        |
|-------------------|------------------|
| Other means of    | : Not available. |
| identification    |                  |

| CAS number/other ide | <u>ntifiers</u>   |          |            |
|----------------------|-------------------|----------|------------|
| CAS number           | : Not applicable. |          |            |
| Product code         | : ANT             |          |            |
| Ingredient name      |                   | %        | CAS number |
| Propane-1,2-diol     |                   | 80 - 100 | 57-55-6    |

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

# Section 4. First aid measures

| Description of necessary f | <u>irst aid measures</u>  |
|----------------------------|---|
| Eye contact                | <ul> <li>Immediately flush eyes with plenty of water, occasionally lifting the upper and lower<br/>eyelids. Check for and remove any contact lenses. Continue to rinse for at least 20<br/>minutes. If irritation persists, get medical attention.</li> </ul>   |
| Inhalation                 | : Remove victim to fresh air and keep at rest in a position comfortable for breathing. If<br>not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial<br>respiration or oxygen by trained personnel. It may be dangerous to the person providing<br>aid to give mouth-to-mouth resuscitation. Get medical attention if adverse health effects<br>persist or are severe. If unconscious, place in recovery position and get medical<br>attention immediately. Maintain an open airway. Loosen tight clothing such as a collar,<br>tie, belt or waistband.  |
| Skin contact               | <ul> <li>Flush contaminated skin with plenty of water. Remove contaminated clothing and<br/>shoes. Get medical attention if symptoms occur. Wash clothing before reuse. Clean<br/>shoes thoroughly before reuse.</li> </ul>   |
| Ingestion                  | : Wash out mouth with water. Remove dentures if any. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention if adverse health effects persist or are severe. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband. |

2/11

| Most important symptoms/e       | effects, acute and delayed   |
|---------------------------------|--|
| Potential acute health effe     | <u>cts</u>   |
| Eye contact                     | : Causes eye irritation.   |
| Inhalation                      | : No known significant effects or critical hazards.  |
| Skin contact                    | : No known significant effects or critical hazards.  |
| Ingestion                       | : No known significant effects or critical hazards.  |
| <u>Over-exposure signs/symp</u> | <u>otoms</u>   |
| Eye contact                     | : Adverse symptoms may include the following:<br>pain or irritation<br>watering<br>redness   |
| Inhalation                      | : No known significant effects or critical hazards.  |
| Skin contact                    | : No known significant effects or critical hazards.  |
| Ingestion                       | : No known significant effects or critical hazards.  |
| Indication of immediate med     | dical attention and special treatment needed, if necessary   |
| Notes to physician              | : Treat symptomatically.   |
| Specific treatments             | : No specific treatment.   |
| Protection of first-aiders      | : No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. |

See toxicological information (Section 11)

# Section 5. Fire-fighting measures

| Extinguishing media<br>Suitable extinguishing<br>media | <ul> <li>Use an extinguishing agent suitable for the surrounding fire.</li> <li>None known.</li> </ul>  |
|--|---|
| Unsuitable extinguishing media                         | . None known.   |
| Specific hazards arising<br>from the chemical          | : In a fire or if heated, a pressure increase will occur and the container may burst.   |
| Hazardous thermal decomposition products               | : Decomposition products may include the following materials:<br>carbon dioxide<br>carbon monoxide  |
| Special protective actions for fire-fighters           | <ul> <li>Promptly isolate the scene by removing all persons from the vicinity of the incident if<br/>there is a fire. No action shall be taken involving any personal risk or without suitable<br/>training.</li> </ul> |
| Special protective equipment for fire-fighters         | : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.   |

Date of issue : 11/01/2016

# Section 6. Accidental release measures

#### Personal precautions, protective equipment and emergency procedures

| For non-emergency<br>personnel | : No action shall be taken involving any personal risk or without suitable training.<br>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br>entering. Do not touch or walk through spilled material. Avoid breathing vapor or mist.<br>Provide adequate ventilation. Wear appropriate respirator when ventilation is<br>inadequate. Put on appropriate personal protective equipment.   |
|--------------------------------|--|
| For emergency responders       | : If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".  |
| Environmental precautions      | : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).  |
| Methods and materials for co   | ntainment and cleaning up  |
| Spill                          | : Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal. |

# Section 7. Handling and storage

| Precautions for safe handling                                      |  |
|--|--|
| Protective measures  | Put on appropriate personal protective equipment (see Section 8). Do not ingest. Avoid contact with eyes, skin and clothing. Avoid breathing vapor or mist. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Avoid contact with used product. Do not reuse container.   |
| Advice on general occupational hygiene                             | : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. See also Section 8 for additional information on hygiene measures.  |
| Conditions for safe storage,<br>including any<br>incompatibilities | : Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. |

# Section 8. Exposure controls/personal protection

### **Control parameters**

Occupational exposure limits

### **United States**

| Ingredient name  | Exposure limits   |
|------------------|---|
| Propane-1,2-diol | AIHA WEEL (United States, 10/2011).<br>TWA: 10 mg/m <sup>3</sup> 8 hours. |

### <u>Canada</u>

#### **Occupational exposure limits**

| Ingredient name  | Exposure limits   |
|------------------|---|
| Propane-1,2-diol | <b>CA Ontario Provincial (Canada, 7/2015).</b><br>TWA: 10 mg/m <sup>3</sup> 8 hours. Form: Aerosol only.<br>TWA: 155 mg/m <sup>3</sup> 8 hours. Form: Vapor and aerosol<br>TWA: 50 ppm 8 hours. Form: Vapor and aerosol |

| Appropriate engineering controls | : Good general ventilation should be sufficient to control worker exposure to airborne contaminants.   |
|----------------------------------|--|
| Environmental exposure controls  | : Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation.  |
| Individual protection measu      | <u>res</u>   |
| Hygiene measures                 | : Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.  |
| Eye/face protection              | : Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: chemical splash goggles.   |
| Skin protection                  |  |
| Hand protection                  | : Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated. |
| Body protection                  | : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.  |
| Other skin protection            | : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.  |

#### **Respiratory protection**

: Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

#### **Appearance Physical state** : Liquid. Color : Yellow. Odor : Sweet. Not available. **Odor threshold** pH : 8 to 8.6 **Melting point** : -32.222°C (-26°F) : 107.78°C (226°F) **Boiling point Flash point** : Closed cup: 99°C (210.2°F) [Pensky-Martens.] **Evaporation rate** : Not available. : Not available. Flammability (solid, gas) Lower and upper explosive : Not available. (flammable) limits : Not available. Vapor pressure : Not available. Vapor density : 1.02 to 1.06 **Relative density** : Soluble. **Solubility** Partition coefficient: n-: Not available. octanol/water **Auto-ignition temperature** : Not available. **Decomposition temperature** : Not available. Viscosity : Not available. : Not available. Volatility

### Section 9. Physical and chemical properties

### Section 10. Stability and reactivity

| Reactivity                         | : No specific test data related to reactivity available for this product or its ingredients. |
|------------------------------------|--|
| Chemical stability                 | : The product is stable.   |
| Possibility of hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur.            |
| Conditions to avoid                | : No specific data.  |
| Incompatible materials             | : Reactive or incompatible with the following materials: oxidizing materials.                |

Date of issue : 11/01/2016

### Order by Phone 1-800-956-5695 - Give Operator Reference #1642716

Hazardous decomposition products

: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

# Section 11. Toxicological information

#### Information on toxicological effects

### Acute toxicity

| Product/ingredient name | Result                   | Species | Dose                   | Exposure |
|-------------------------|--------------------------|---------|------------------------|----------|
| Propane-1,2-diol        | LD50 Dermal<br>LD50 Oral |         | 20800 mg/kg<br>20 g/kg | -        |

### Irritation/Corrosion

| Product/ingredient name | Result                                       | Species          | Score | Exposure                  | Observation |
|-------------------------|--|------------------|-------|---------------------------|-------------|
| Propane-1,2-diol        | Eyes - Mild irritant<br>Eyes - Mild irritant | Rabbit<br>Rabbit | -     | 24 hours 500 mg<br>100 mg | -           |

#### Sensitization

There is no data available.

#### **Carcinogenicity**

There is no data available.

#### Specific target organ toxicity (single exposure)

There is no data available.

#### Specific target organ toxicity (repeated exposure)

There is no data available.

#### Aspiration hazard

There is no data available.

| Information on the likely | : Dermal contact. Eye contact. Inhalation. Ingestion. |
|---------------------------|---|
| routes of exposure        |   |

#### Potential acute health effects

| Eye contact  | : Causes eye irritation.                            |
|--------------|---|
| Inhalation   | : No known significant effects or critical hazards. |
| Skin contact | : No known significant effects or critical hazards. |
| Ingestion    | : No known significant effects or critical hazards. |

#### Symptoms related to the physical, chemical and toxicological characteristics

| Eye contact  | : Adverse symptoms may include the following:<br>pain or irritation<br>watering<br>redness |
|--------------|--|
| Inhalation   | : No known significant effects or critical hazards.  |
| Skin contact | : No known significant effects or critical hazards.  |
| Ingestion    | : No known significant effects or critical hazards.  |

| Short term exposure            |   |
|--------------------------------|---|
| Potential immediate effects    | : No known significant effects or critical hazards. |
| Potential delayed effects      | : No known significant effects or critical hazards. |
| Long term exposure             |   |
| Potential immediate<br>effects | : No known significant effects or critical hazards. |
| Potential delayed effects      | : No known significant effects or critical hazards. |
| Potential chronic health eff   | <u>ects</u>   |
| General                        | : No known significant effects or critical hazards. |
| Carcinogenicity                | : No known significant effects or critical hazards. |
| Mutagenicity                   | : No known significant effects or critical hazards. |
| Teratogenicity                 | : No known significant effects or critical hazards. |
| <b>Developmental effects</b>   | : No known significant effects or critical hazards. |
| Fertility effects              | : No known significant effects or critical hazards. |

### Delayed and immediate effects and also chronic effects from short and long term exposure

#### Numerical measures of toxicity

Acute toxicity estimates

There is no data available.

# Section 13. Disposal considerations

#### **Disposal methods** : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling empty containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

# Section 14. Transport information

|                               | DOT            | TDG            | IMDG           | ΙΑΤΑ           |
